DETAILED ACTION

The following action is in response to application 10/579,985 filed on May 22, 2006.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

With regard to claim 1:

on line 16, "the torque-transmission" has been replaced with --torque transmission--.

on line 17, "the circumferential widths" has been replaced with --circumferential widths--.

on line 18, "the circumferential spacing" has been replaced with --circumferential spacing--.

Please Note: these amendments have only been added to prevent 35 USC 112, second paragraph antecedent basis problems.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the gear change mechanism as claimed, and particularly including a gear selector member comprising first and second sets of dogs spaced radially

relative to each other; the torque-transmission contact faces of the dogs in each of said sets having a greater radial than axial dimension, and the circumferential widths of the dogs in each of said sets being less than the circumferential spacing of the dogs in the respective set with which they are adapted to engage, and including the remaining structure of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Rutkowski, Dickie, Alvey and Schmitz have been cited to show similar transmissions.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
